

## A&T Guide Review: Introductory Filmmaking; Advanced Filmmaking

The A&T Guides reviewed this potential project and considering it does not involve funding has little influence in if the project moves ahead. This looks to be an interesting curriculum addition that will involve English, Music, Theatre, and videographer. There may be other programs to consider moving forward so be open to that possibility. If you would like to further discuss your ideas Cathie, Matt, or Nick would be glad to meet with you or review ideas. Thanks for submitting a proposal as we are tracking various projects to help people along or inform where needed.
