

**April 18<sup>th</sup> Curriculum Forum**  
**2:00pm-4:00pm, Heritage Commons**

1. **Welcome and Accomplishments:** What innovative cluster curricular activities have our colleagues already been engaged in?
2. **Timeline and Goals for Curriculum Committee:**
  - a. The main goal is to develop a system that allows for the flexibility needed to innovate while maintaining integrity and consistency of credit-bearing cluster experiences
  - b. Share work completed to date, a proposed timeline, and anticipated priorities
  - c. Description of credit-bearing cluster experience categories we have developed so far. This list is based on faculty input shared with committee members and cluster guides. The following experiences have been proposed but neither finalized nor fully defined:
    - i. Toolkit Courses, Projects, Capstones, Applied Labs, Service Learning, Assistantships, Travel, Research, Practicums, Internships, and Special Topics
3. **Discussion and Input:**
  - a. Participants will select the experience they are most interested in discussing or trying
  - b. They will then engage in a structured discussion during which they exchange ideas and develop a shared understanding of the possible characteristics, outcomes, and assessment methods for the selected experience
  - c. A version of the worksheet we will use to guide the discussion is attached to the invitation email
4. **Opportunities for Feedback and Suggestions:**
  - a. What do you see as the benefits and drawbacks of our approach?
  - b. The kind of work the committee is engaging in is different from its typical tasks. Are you comfortable with the role the committee is taking in this process?
  - c. What do you need from the curriculum committee/guides?
  - d. Please provide any additional comments.
