

Plymouth Partners Students with Disabilities

Result: Approve

Hello Ann,

Thanks for submitting an Integrated Cluster project proposal. We are excited about your ideas and appreciate your investment of time in this new process. Your project works across clusters, activates students, utilizes faculty expertise, and involves external partners while bringing students from Special Ed at PRHS into the community. The guides can see the idea evolving in many directions. There are benefits across the different clusters and we can see that the project could scale up in the future. We strongly endorse and approve of this project and look forward to the results!

Thank you!

Cathie LeBlanc, Matt Kizer, Nick Sevigney
